

Supplying offshore service vessels with fuel and lubricants 24 hours-a-day, seven days-a-week, OMS offers comprehensive marine services to the GOM and beyond.

Part of O'Rourke Petroleum, OMS has the access to space and availability for extremely large volume potential. From shipping and drilling vessels to ocean liners, barges and tugs, OMS supplies quality products and services to customers across the Gulf Coast.

## Fuels

With a fully Coast Guard approved delivery system, OMS utilizes an entire fleet of transports to deliver quality fuels across the dock. OMS also maintains a 13,000 bbl fuel barge capacity for deliveries in Houston and Galveston.

### *Transport deliveries to docks across the Texas Coast, including:*

- ✦ Port of Houston turning basin
- ✦ Manchester Terminal
- ✦ S. W. Shipyards
- ✦ Texas Terminals
- ✦ RO/RO Docks in Barbours Cut Terminal
- ✦ Texas City Docks
- ✦ Newport Marine Terminal in Galveston
- ✦ G&S Docks in Corpus Christi

Take advantage of OMS's exchange with supply points across the GOM to bring additional cost-saving fuel delivery to your organization.

## Lubricants

Access major brands of lubricants for the marine trade, including Shell Marine Lubricants, Citgo, Summit Synthetics and O'Rourke's own private label – EmeraldLubes. Delivery can be arranged via pipeline, transport carrier, in drum dockside or by barge in drum or bulk quantities.

## Environmental

OMS is one of the area's largest TCEQ-permitted collectors of used oil, bilge water, petroleum storage tank bottoms, filters, used absorbents, waste diesel and storage of diesel products. Reduce your risks by adhering to environmental restrictions. Use OMS to treat and dispose of petroleum-contaminated products.

## Ancillary Products

Use OMS for delivery of all ancillary products via OMS truck or barge delivery for all absorbent pads, booms, degreasers, cleaners and environment-friendly products, among others.

### **Worldwide Marine Services**

Through strategic alliances and partnerships with suppliers and brokers across the globe, OMS supplies high quality fuel and lubricants to meet the demands of fleets at any port of call.

Additionally, OMS provides engineering and technical support services to make effective recommendations to seismic, large pipe laying vessels, drilling rigs, OSVs, VLCCs and container ships.

Consistently attending engineering certification programs and lubrication technology seminars, the OMS team has extensive knowledge in technical services for the marine and offshore drilling sector.

---

Established more than 75 years ago, O'Rourke Petroleum serves as a one-stop source for industry, offering comprehensive petroleum services that include lubricants; specialty fueling services; high-speed flushing, cleaning and lubricant reconditioning service (Lubrecon Systems, Inc.); and Select Environmental Petroleum Management (SEPM), Houston's premier environmental services provider for used oil, coolant and filter collection services.

Located minutes from the Port of Houston, O'Rourke strives to offer total petroleum management for a variety of markets, including petrochemical and refining, power generation, general manufacturing, transportation, automotive and aviation.
